

IRVINE PRAIRIE

Winter Meeting | March 1, 2023

C. Irvine, B. Pippert, L. Jackson, J. Meissen, L. Walter,
A. Olson, A. Phillips

Tallgrass Prairie
CENTER

University of Northern Iowa.

Outreach and Education 2022

Outreach work in 2023 will focus on celebrating the Irvine Prairie Expansion and using Irvine Prairie to help raise awareness of the mission of the TPC. We will continue to explore ways to efficiently meet the need for field trips and group tours, to inform and inspire the public to explore Irvine through print and electronic communications, and improve the visitor welcome area. Tasks to support 2023 operations include:

Education

Involve K-12 Students in Restoration Work

We will finalize plans for 2023 visits after prescribed burns are complete.

Personnel: LW, JM, AmeriCorps

Materials: Transplants, dibbles, marking supplies, watering supplies

Field Trips and Tours

We will continue to staff field trips when requested and staff time allows. Thanks to previous visitors, we now have sets of tried and tested activities we can use for student-focused events.

Personnel: LW, AmeriCorps, volunteers

Materials/Equipment: Varies by activity type and season but may include sets of insect nets, field guides, binoculars, seed collecting supplies

Community Engagement

Communication

Activities in 2023 will focus on the Irvine Prairie Expansion. We will continue to use the Irvine Prairie web pages and Facebook posts to publicize and share information about Irvine Prairie. We will seek opportunities to publish information and articles about Irvine in mainstream local and/or statewide publications. We will use the species lists from the research reports to create printable checklists of plants for the website. Staff members will take photographs of the landscape, flora/fauna, and activities at Irvine throughout the seasons for use in electronic and print publications.

Personnel: AP (lead), all staff and AmeriCorps

Materials/Equipment: NA

Logistics

Work will focus on improving the visitor welcome area: staging and parking areas. We will investigate and select designs, locations, and contractors for constructing an information kiosk and a wall to hide the portapotty (if this can be done in a way that is compatible with servicing the toilet).

Personnel: MW, KN, LJ, AP

Materials/Equipment: TBD

Events

2022

- March 3, 2022 – Winter Meeting 2022
- April 25 – Irvine Prairie burn drone video taken
- May 26 – Union High School, La Porte City, transplanting project, approximately 50 10th-grade students under the direction of Craig Hemsath
- August 22 – Cathy named Iowa Conservation Woman of the Year by the Conservation Districts of Iowa
- September 26 – Benton County Nutrient Reduction Project holds event honoring Cathy
- Oct. 14 – North Tama Schools eighth-grade science classes visited Irvine Prairie under the direction of Jean Matzen, educational project, approximate students
- December 6 – Irvine Strategic Planning Meeting at TPC (combined with holiday potluck)
